

Searchlight has Visible LED's and Invisible Infrared (IR) LED's

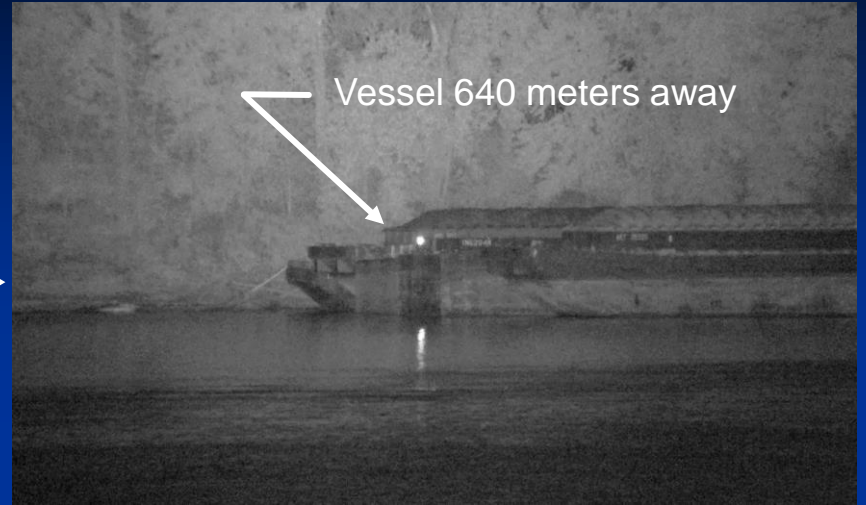

Description: Searchlight Beam projects an Infrared (IR) Beam undetected by the Human Eye. Using the Lowlight Camera, objects/people normally unseen in total darkness, are covertly "Lit up like Daylight" on the camera monitor.

The Brightest Beam you'll never see™

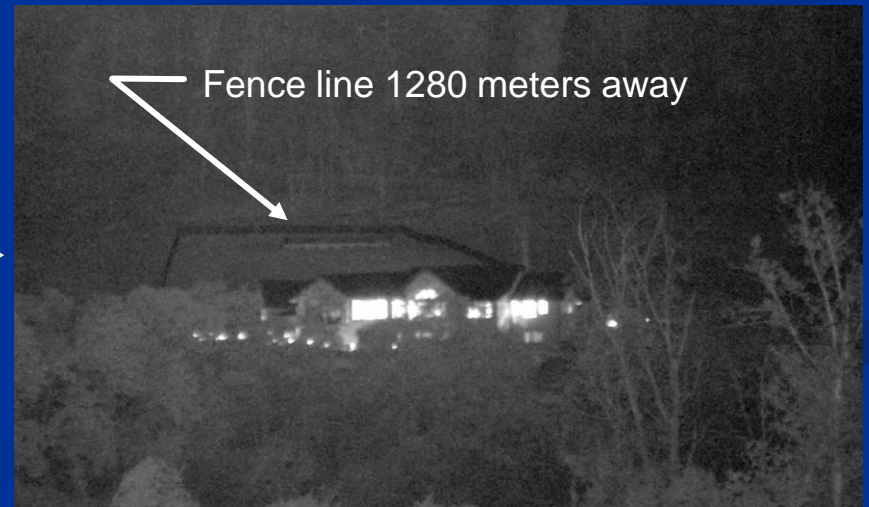

Harbor in Total Darkness

Harbor seen on Camera Monitor!

House on Dark Shoreline

House seen on Camera Monitor!
